Analysis on Feedback for 2014-2015

1. Analysis of student's feedback on campus experience

- a. Majority (53.7%) of the students feel the existing academic atmosphere as good, whereas 17% perceive it as very good and 29.3% are satisfactory.
- b. Forty two per cent of the students feel the existing library and laboratory facilities as good, where as 14% as satisfactory and the remaining as poor.
- c. Facilities in the Administrative building are poorly rated by the majority of the students (62%).
- d. Infrastructure facilities in the college are rated as average by the majority of the students and hence it is to be reviewed.
- e. Sports infrastructure and other extension activities are very much liked by the majority of the students.
- f. 24.4% of students perceived the campus experience as very good, 38.1% as good and the remaining 39.2% as average namely satisfactory.
- g. Over all analysis reveals that, the mean score is 63.1 and S.D is 11.8, score is divided into three categories namely low satisfaction, average satisfaction and high satisfaction.

2. Feedback from Students on Teachers

The IQAC of Lekshmipuram College of Arts and Science conducted a 'Student feedback on Teachers' based on the following criteria on a five point scale.

- Knowledge Base of a Teacher
- Preparation of the Class
- Sincerity and commitment of the Teacher
- Motivation by the Teacher
- Punctuality in conducting classes
- Planning and completion of syllabus on time.
- Clarity of the presentation or communication skill
- Quality of the language and clarity of the voice.
- Methodology used to impart the knowledge, use of Blackboard, Charts, and Teaching Aids.
- Active learning methodology used like group discussion, tutorials, assignments and seminar, field trips, quiz, etc.
- Accessibility of the teacher in and outside of the class rooms for clarification, counselling and career guidance, etc.
- His/her role as a mentor, motivator, guide, facilitator and councillor.

Presentation of overall analysis of response of the students is not possible to summarize here. However, general impression of the students about their teachers are 'as very good' in teaching and learning process. The innovative method adopted by the teacher, individual attention given by the teacher for the progress of students, Use of ICT and method of evaluation are satisfied by the students and appreciated by them.

3. Feedback from Alumni

Feedbacks from the alumni are collected and analysed. Some of the inferences drawn from the analysis are summarised as follows:

- Most of the alumni felt that the college has a remarkable progress in all aspects.
- A few buildings are to be demolished and construct a new ones.
- Alumni asserted that the coaching provided by the college previously helps them to achieve success in competitive examinations.
- More extension activities are to be carried out such as adoption of village, medical camp and free tuition, etc.
- They stressed the need for new construction and conducts election at least once in three years and more alumni are to be enrolled.
- Suggested to include more alumni in the forum.

4. Feedback from PTA

Feedback collected from the parents are analysed as follows:

- PTA felt the need for job oriented short term courses to ensure the employment opportunity of their wards.
- PTA felt more care and individual attention for the progress of their wards
- More counselling is required for the emotional balance of their wards.
- Majority of the parents are satisfied with the services rendered by the institution.
- Forty two per cent of the parents felt the need for having effective transporting system for the conveyance of their wards.

Best Practices for the Academic Year 2014-2015

Community Oriented Activities – Social Consciousness

Goal

To develop and nurture social consciousness among the students through community oriented activities.

The Context

The Lekshmipuram College of Arts and Science is situated in the rural belt of Colachel and the majority of the students are also belongs to rural background and first generation learners. The neighbourhood community of the institution faces various social and environmental problems. To uplift the society, the college has to create consciousness and awareness among the society through well planned and organised activities, which in turn helps to develop social consciousness among the students to fight against the social evils and community problems.

The Practice

The entry behaviour of students is measured and their participation in social activities such as NSS, YRC and similar organizations at the school level are identified through their previous records. Based on their interests, they are enrolled as NSS, NCC, YRC (Youth Red Cross Society) and RRC (Red Ribbon Club). Periodical meeting are arranged in the campus for motivating them and organised a series of community oriented activities such as awareness rallies, community meet, organising road safety week, voter's awareness rallies, and various social consciousness programs are arranged. They are also deputed as volunteers in Festivals and local body elections. These volunteers are guided by the co-ordinators from the faculty. Leadership trainings are also provided.

Evidence of Success

The volunteers are voluntarily attending the awareness programmes and they are leading to fight against social related issues. The leadership qualities are also developed among them.

Problem Encountered

The rigidity of the course and curriculum posed problems among the students to concentrate community oriented activities.

Note

Creating and sustaining interest among the undergraduate students for the social cause is a challengeable task.

Development and Nurture of Innate Talents

Goal

To develop and nurture the innate talents of the undergraduate students

The Context

Lekshmipuram College of Arts and Science is situated in Mondicaud village at Lekshmipuram, a rural village of Knayakumari District. The majority of the stake holders are first generation learners and from the rural belt of neighbouring villages. Most of them have some innate talents in arts, culture and other co-curricular activities like cultural folks. Due to lack of opportunity their innate talents are buried in many contexts. By realising this, the college has identified 'development of innate talents of undergraduate students' as one of the best practice.

The Practice

First of all, the college has identified the innate talents possessed by the individual students department wise with the help of the respective faculty. The database has been created and they are motivated to take active participation in various competition held at various level. Achievements and their participations are appreciated by displaying on the notice board and the expenditures are met by the college. Training is also provided in various items by inviting resource persons. Finally, a one week programme named 'Talents Week' was celebrated.

Evidences of success

Opportunity for exhibiting their innate talents is provided to the students in which 30 items were demonstrated in the stage. All the participants were appreciated and prizes were distributed in the college day. Moreover, students participated and won prizes and cash wards.

Problem encountered

In regular working days, it is difficult for the organisers to bring all the students under one umbrella. Some of the regular working hours are necessary for arranging practices and talents festival. Seeking co-ordination and co-operation of other members for this novel cause becomes very difficult in all occasion. Cost of costumes and other stationeries are high.

Notes

Identification of all innate talents of students is a challengeable task. Committed co-ordinator is necessary.
